After this date, we will replace at one-half the current prices if notified by Oct. 1st following delivery, F.O.B. Winfield, Kansas. Replacements will be made of same size stock as originally purchased. Shortages or complaints must be reported at once.

TERMS—Cash in full when order is booked.

CHERRIES *None Finer*

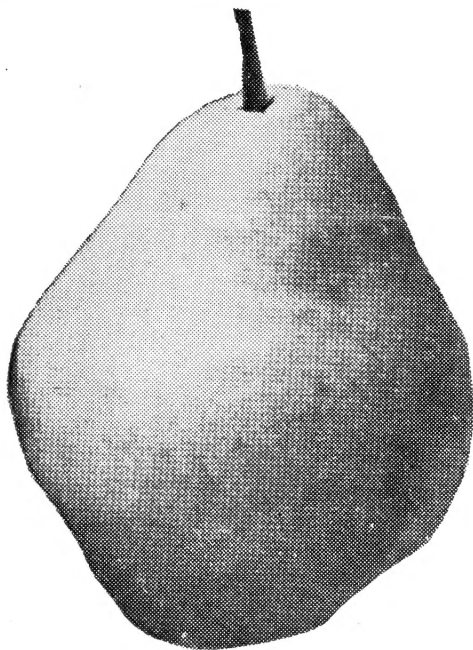

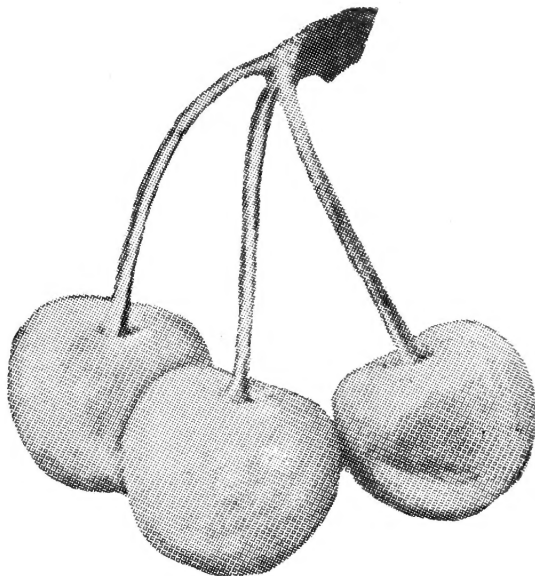

HARDY SOUR CHERRIES

LARGE MONTMORENCY — Best large late pie cherry, ripening the latter part of June. The fruit is extra large, bright red, firm and fine for canning and shipping. A strong grower. Perfectly hardy. Our best selling cherry variety.

EARLY RICHMOND — Excellent sour variety. Similar to Morrello but ripening two weeks earlier. A very good companion to plant with Large Montmorency to lengthen the fruiting season.

KANSAS DUKE — Large semi-sweet cherry, juicy and rich. Deep red color. Very attractive tree.

CHERRY PRICES — 11/16 4-6 ft. \$1.50 each. 3-4 ft. \$1.00 each. 2-3 ft. 75c each.

DEPENDABLE CHOICE PEARS

KEIEFFER-OCTOBER — A very large fine appearance. Most widely planted of all our winter pears. A sure cropper and many trees have stood for over one hundred years.

SECKEL (SUGAR PEAR) — Ripens in late summer. Small, rich fruit of highest quality.

NEW DOUGLAS — Beautiful, large smooth pear with golden yellow color flecked with russet. Flavor is delicious, sweet, melting and juicy. Bears while tree is very young. Some have fruit first year.

PEAR PRICES — 5-7 ft. \$1.75 each, 4-5 ft. \$1.50 each, 3-4 ft. \$1.15 each.

FOREST TREE SEEDLINGS

For those of you wishing to plant trees on your farm in conservation work, windbreaks, soil erosion, we are offering Forest Tree Seedlings which we consider the best all around varieties.

PEACH TREES

GOLDEN JUBILEE—Tree habits and fruit resembles Elberta but ripens about one month earlier. The skin is yellow with red blush, flesh golden yellow, juicy, tender and sweet. Hardy freestone, regular bearer.

HALE-HAVEN—Introduced by Michigan Experiment station. A cross between J. H. Hale and South-Haven. Yellow flesh of excellent quality. Ripens latter part of August. A strong grower and very hardy.

ELBERTA—A standard market peach. Fruit very large, oblong shape. Yellow tender flesh, with a firm skin. A good shipper. Ripens first week in September.

CHAMPION (Freestone)—A western peach of very large size and good quality, also noticeable for the regularity of its bearing. Skin is of a rich, creamy white with a red cheek; flesh creamy white, sweet and delicious, rich and juicy. A most profitable market peach. July 20th.

BELLE OF GEORGIA—Very large, skin white, with red cheeks; flesh white, firm and of excellent flavor; the fruit is uniformly large and showy, prolific. Chinese Cling seedling. Freestone.

JAPAN BLOOD DWARF

This peach cannot be recommended too highly. It is very heavy bearer and needs to be thinned at least half. Fruit is dark red and the flesh red, with an occasional light streak into pit. Juice is dark red. Small pit, flavor unsurpassed, rich, juicy, firm and in fact the one good early peach in preference to any variety we have seen. Fruit ripens the last of June to first of July.

PEACH PRICES—4-6 ft. 95c each, 5 for \$4.50. 3-4 ft. 75c each, 5 for \$3.50.

WINFIELD NURSERIES PLUM TREES

OPATA—A rich dark red oblong plum that is very delicious. Bears prolifically. Tree is tall, upright growing. Spreading in habit of growth. An excellent variety for home and market use.

WANETA—Regarded as the largest and best all around newer sort. Bright red delicious quality, small pit, skin free from acidity, very productive and an early bearer, often producing fruit two inches in diameter. This is Prof. Hansen's masterpiece in plums and you will make no mistake in planting them liberally.

COMPASS CHERRY-PLUM—It is larger than the Richmond Cherry, and is about the same bright red color. In quality it is good, with a different flavor from any Cherry or Plum. It is fine for canning and preserving. July. Much superior to Bush Cherry.

SAPA (Hansen)—July. An extremely early, vigorous bearer. Fruit medium size, glossy black; flesh deep purple, excellent flavor; skin very tender.

PLUM TREE PRICES

9/16 Grade 4 to 5 feet \$1.35 each, 5 for \$6.00, 10 for \$11.00

HARDY GRAPE VINES

CONCORD—The old standby in the leading market vineyards, and in home plantings Concord should be included. "The Grape for the millins." Excellent for grape juice, wine, table use, canning and market. Black.

FREDONIA—A very very early black grape. Ripens shortly before Moore's Early. The bunches and berries are large, with excellent flavor. It is an extra good shipper as it does not crack. Vines are vigorous and productive. We believe this will soon be the leading grape.

GRAPE VINE PRICES: 30c each, 4 for \$1.00, 25 for \$5.00

BLACKBERRIES

ALFRED — The coreless Blackberry. A glossy jet-black color, a sweet, delicious flavor. Nearly seedless. Hardy; does well in cold sections.

PRICES—25 for \$3.00, 100 for \$10.00

RASPBERRIES

CUMBERLAND — The largest of all the blackcaps; coal black berries; very firm and the quality of the very best; excellent shipper. Bush is a strong grower, stocky canes and unusually prolific. Mid-season.

10 for \$1.50, 25 for \$3.50, 100 for \$10

GOOSEBERRIES

Gooseberries should be planted in good rich soil and well manured once a year. Prune regularly, thoroughly cutting out all dead wood and surplus branches. Plant in rows 4 to 8 feet apart in row. It is well to mulch heavily in the fall. Plants are hardy, rugged and easily grown.

HOUGHTON—A medium sized American variety which bears abundant and regular crops and never mildews; fruit smooth; red, tender, and very good; valuable. 2 yr. 75c each, 3 for \$2.00.

HORSERADISH

Easy to grow. The plants can be used at the end of the first season. Grind your own horseradish. Crowns 3 for 50c, cuttings 10 for 50c.

SENSATIONAL THORNLESS BOYSENBERRY

Probably the biggest berry ever developed. Imagine berries 1½ to 2 inches long, so large that 20 make a pint, and are so productive that 100 plants produce 50 gallons of fruit the second summer. That is the record of Boysenberry. The beautiful wine-red fruit combines the delicious flavors of Loganberry, Blackberry and Raspberry, of which it is a cross. No new fruit in many years has caused such a sensation as Boysenberry. In addition to all these remarkable qualities, the plants we offer here have NO THORNS.

3 for 75c, 10 for \$2.00, 25 for \$4.00

STRAWBERRIES

HAVE THEM FRESH AND LUSCIOUS FROM YOUR OWN GARDEN

SENATOR DUNLAP—The old reliable June bearer. Senator Dunlap is probably the best known and most universally planted of any strawberry. It thrives and produces the heaviest single crop in almost any part of the country. Many of the new varieties produce larger or sweeter fruit—but Dunlap is the one to which all are compared. 100 for \$2.00.

BLAKEMORE—A very early berry—always a heavy fruiter—and an excellent shipper. This strawberry is a vigorous grower and stands drouth better than any other known. Every grower should have some of this variety to get the early market. 100 for \$2.00.

GEM—The most reliable of all two-crop strawberries. Gem produces lots of fruit—firm berries of excellent flavor and color. It is very hardy, thrives even under unafavorable conditions and, unlike most everbearers, makes lots of plants. This is an excellent strawberry in the home garden and a sure Money Maker in a commercial plant. 100 for \$4.00.

Strawberries Postpaid

SAGE — One of the best herbs for seasoning. 30c each.

WINFIELD NURSERIES TEN COMMANDMENTS

For Planting Dormant Stock

1. Do protect roots from air, sun, wind, keep them moist at all times before planting.
2. Do dig holes larger than root spread.
3. Do use good rich soil around the roots.
4. Do keep fertilizer away from the roots.
5. Do spread roots well and set slightly deeper than the plant stood in the nursery row.

Winfield Nurseries, Winfield, Kansas

6. Do work soil carefully around and between roots and firm well.
7. Do leave a slight depression on top for a water basin.
8. Do water thoroughly when planting and keep ground soaked by watering once a week until roots are well established.
9. Do prune severely—better to cut off too much than too little—as a rule $\frac{1}{3}$ to $\frac{1}{2}$ of the top branches should be removed.
10. Do leave soil loose and keep well cultivated during summer.

CANNAS
